THE GRAND MOVEMENT.

THE ADVANCE INTO VIRGINIA.

The Rebel Army Falling Back on Richmond.

Highly Important from the Peninsula.

Gen. Butler's Army Lands Successfully at City Point.

Beauregard at Petersburgh with Thirty Thousand Men.

Cavalry Fighting at Thoroughfare Gap.

AN IMPORTANT ORDER FROM GEN. LEE.

All Rebel Forces in Northern Virginia Ordered South.

Further Intelligence from Gen. Sherman's Army.

Gen. Hooker's Corps to Make an Important Movement.

SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Friday, May 6.

There is little doubt but that Lee is falling back from the Rapidan upon Richmond, having been driven to this by the main movement of Gen. Grant. The race will now be for Richmond. In the skirmishes at Thoroughfare Gap, yesterday, an officer was killed, on whom was found an order from Lee, directing all the guerrilla cavalry bands of Northern Virginia to rendezvous and form a junction with his army. The order was dated May 4, and is considered good evidence that Grant's movement was a surprise to Lee, and that he is making all possible haste to get out of Grant's reach by getting behind the fortifications of Richmond.

There is no longer any communication with the front, and it is reported at night that Moseby's guerrillas have possession of the railroad between Rappahannock and Culpepper, though this is not credible.

Burnside's reserves, which follow the main army, are now across the Rappahannock.

There is no train, whatever, in regard to the skirmishes at Thoroughfare Gap, yesterday.

Reliable intelligence from the Valley of the Shenandoah, represents it entirely clear of rebel troops. Should they venture down it, they will run against some formidable force.

Gen. Blair Grant, is reported to have been within fifteen miles of Richmond, yesterday.

Transports are loading at Alexandria for Urbana, on the Rappahannock, one of the future bases of supplies.

SECOND DISPATCH.

Mr. E. A. Paul sends the following to this bureau:

Nothing has been heard officially from Lieut.-Gen. Grant during the last forty-eight hours.

The Orange and Alexandria Railroad has been abandoned above Union Mills Station, and all the Government property brought into Alexandria. The last train left Brandy Station at 9 o'clock Wednesday evening.

At what point the new supply depot will be established, remains to be seen.

It is now stated that the Army of the Potomac did not move until the signal officers telegraphed that Lee's rear was leaving fortifications, Lee's purpose evidently being to fight Gen. Grant's command before Grant comes up.

Occupation of City Point, Va., by Gen. Butler.

WASHINGTON, Friday, May 6.

Official dispatches received at the War Department, announce the advance of Gen. Butler, with his command, and his successful landing at City Point, Va.

[City Point is on the right bank of the James, at the mouth of the Appomattox, ten miles from Petersburgh, where Beauregard is reported to be, and 20 miles southeast of Richmond.]

Important from the Peninsula—Beauregard at Petersburgh, with 30,000 Men.

WASHINGTON, Friday, May 6.

The Government has received information, by way of Fortress Monroe, that Beauregard is at Petersburgh, Virginia, with a force of thirty thousand men.

Fighting at Thoroughfare Gap—Rebel Cavalry Moving Southward—An Important Order from Gen. Lee.

WASHINGTON, Friday, May 6.

Yesterday afternoon, at 3 o'clock, information was received by Gen. Burnside that a large force of rebels was moving southward by way of Thoroughfare Gap.

This was communicated by signals, and Burnside at once sent off a large force of cavalry, who came up with the enemy as they were passing through Thoroughfare Gap.

A volley from our men brought to the ground a lieutenant, with the name "Manassas" marked on his shirt, who is supposed to have been an Aid to either Lee or Ewell, as orders were found upon his person signed by order of Gen. Lee, directing Imboden and his cavalry, and all the cavalry force in Northern Virginia, to move at once and join Lee.

These orders are dated May 4, and it is supposed that the cavalry retreating South was not only that of Imboden, but all the rebel cavalry in Northern Virginia, except probably a few guerrilla bands and marauders who could not be first receive the notice.

This information shows that the statements telegraphed from New-York, of the defeat of Stuart at Thoroughfare Gap, are without foundation.

Gen. Grant's Advance—The Army Passed Through the Wilderness—The Army on Lee's Flank—No Fighting up to Wednesday Night.

PHILADELPHIA, Friday, May 6.

The *Bulletin* has the following special dispatch:

WASHINGTON, Friday, May 6.

The Army of the Potomac has passed the Wilderness, which includes the old Chancellorsville battle-ground, east of Lee's army, and pressed on until it reached an open plain southeast of the Wilderness.

Our informant states that Gen. Grant took that route in order to flank Gen. Lee.

He also states that the theory entertained by officers there was that Gen. Lee was still in his works about Orange Court-house.

Many believe that it will be found that Gen. Grant has flanked Gen. Lee, and is between his army and the works of Richmond.

ANOTHER DISPATCH.

WASHINGTON, Friday, May 6.

Information has been received here that our army has passed safely through the "Wilderness," but nothing further is known this morning of the onward movement.

Rumors prevail of fighting, but they are founded on mere conjecture, as it is known that up to 7 o'clock on Wednesday none had taken place.

There are troops remaining on this side of the Rapidan, but it would not be proper to state their exact location. These include some, if not all of the colored soldiers.

Much of the rolling stock of the railroad has been sent back to Washington, as there is now no further use for it.

Rumors, Reports, &c.—Banniker's Rumored Defeat Positively Contradicted—Report from Boston.

PHILADELPHIA, Friday, May 6.

The *Bulletin* has received a special despatch from Washington stating that a report was in circulation that Gen. Burnside's corps had met with a defeat, but it was untrue. The correspondent says: "A gentleman from the front informs me it is impossible as Burnside is not in a position to have the enemy attack him."

BATTLE REPORT FROM BOSTON.

WASHINGTON, Thursday, May 5—7 P. M.

To the Boston Merchants' Exchange,

The great battle commenced this morning. Up to noon the result was favorable to our army.

THE MOVEMENT OF THE ARMY.

From the Washington Star of Thursday.

A considerable portion of our Army of the Potomac, on the night before last and yesterday, changed its position in the front so materially as that the public may, possibly, at any moment hear of the occurrence of perhaps the most extensive and important battle of the war. This change of position was made without any demonstration whatever indicating that it was going on; not an additional tap of drum or blast of bugle being permitted, and there were no stragglers whatever bringing up the rear as in former times. All who witnessed it that we have seen, speak in the most enthusiastic terms of the discipline, condition and "*elan*" then and there manifested by our troops—good signs indeed.

Good military judges about us believe that Lee meant to confront Grant directly; and that any change of position he (Lee) may have made, is with this purpose in view.

From Gen. Sherman's Army—The Campaign Opening.

Correspondence of the Pittsburgh Commercial.

CHATTANOOGA, Friday, April 29.

Affairs are rapidly nearing a crisis. In one word, the order to advance is about to be given—shall I say, has been given? By the time this meets the eye, unless some unforeseen event occurs to change the present intentions.

I am safe in saying the two armies will have approached considerably nearer each other than they now are, unless Johnston falls back before the combined and rapid movements of Sherman. His movements will be simultaneous with that of Grant in the East. The Lieutenant-General, amid his other duties, manages to find time to extend his telegraphic finger very frequently to this field of operations, which, although distant, is nevertheless, in a certain sense, under his own eye.

We do not believe that Johnston will make a stand this side of Atlanta.

GEN. HOOKER'S CORPS IN MOTION.

From the Commercial Advertiser of Last Evening.

The following is an extract from a private letter dated Chattanooga, April 29:

"The greater part of the Twentieth Corps is about to make a rapid march in some direction, where there will be a probability of fighting. No transportation will be allowed, but barely sufficient to carry the necessary ammunition and ten days' rations, of which three will be carried by the soldiers in their haversacks. Supplies, transportation, ordnance, &c., has been 'turned over,' and other preparations made. Scouting parties have already been sent out in the direction of Trenton. There are various surmises as to the direction to be taken; but it will be where the rebels are expected to be found. No tents or baggage whatever are allowed. Officers, except those who have horses, will carry their own baggage, being thus on the same footing with the soldiers. Ringgold, Trenton or Dalton is supposed to be our probable destination. Not work ahead. The Second Division of this corps has just arrived. The whole three Divisions are now here.

RAPID ORGANIZATION FOR SERVICE—6,000 LEFT FOR THE FRONT, ETC.

CINCINNATI, Friday, May 6.

The draft in the First Ward yesterday, passed off quietly. Among those drawn is Alfred Gaither, Superintendent of the Adams' Express Company. Several other prominent citizens were also drafted.

Gov. Dennison addressed the National Guard at Camp Dennison yesterday in a stirring speech.

The Seventh Regiment National Guards, left this morning for Camp.

The Eighth, Ninth and Tenth Regiments follow to-morrow.

Six thousand troops have left Indiana during the week for the front.

Arrest of Greenback Counterfeiters.

ST. LOUIS, Mo., Friday, May 6.

Yesterday three citizens of St. Louis were arrested by the United States Detective Police. One hundred and seventy counterfeit greenbacks and four plates used in printing the notes, were found in possession of the parties. They are all old hands at counterfeiting, and have carried on the business for several years in this city and elsewhere. They will be sent to Washington for trial.

NEWS FROM WASHINGTON.

SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Friday, May 6.

ARRIVAL OF GEN. GILMORE.

Gen. Gilmore has arrived at Fortress Monroe, and taken Command of the Tenth Army Corps.

GEN. BLAIR'S CASE.

Union Congressional Delegation from Ohio called upon the President to-day in regard to the removal of Gen. Blair. They urged that not being legally in the service, he should not be continued therein. The President gave no decisive answer as to what course he would pursue. The Senate will also follow up the matter by a resolution requesting the President to relieve him from command, on the ground that he is holding his commission in violation of the law of Congress.

THE NAVY-YARD SITE.

The protracted incubation of the House Naval Committee over the new navy-yard, has at length reached a happy issue. They have agreed upon New-London as the site for it. Judge Kelley, of Philadelphia still hangs out for League Island, and will make a minority report in favor of that place. Conflicting interests and local jealousies exist to a sufficient degree to squelch the whole matter when it comes up in the House.

THE HAY BILL.

Importers of foreign liquors and manufacturers of tobacco had their interests advocated before the Senate Finance Committee, to-day, through several representatives, but it will avail nothing. A high tax upon these commodities is a foregone conclusion, and pleas from parties interested are useless.

THE RAID ON THE BALTIMORE AND OHIO RAILROAD.

The damage to the Baltimore and Ohio Railroad at Piedmont, was done by a mere handful of guerrillas, and will not exceed forty or fifty thousand dollars. It did not interrupt business longer than three or four hours.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Friday, May 6.

REBEL CAVALRY DISPERSED.

The *Primrose*, of the Potomac Flotilla, which arrived here to-day, reports that a few days ago a party of rebel cavalry was seen near Matthias Point, when the *Primrose* and *Tracy* opened on them with shell, causing them to take shelter behind the walls of an old building, whence they were driven, one of our shells knocking the wall down.

GEN. BUTLER AND GEN. PACK.

The following is an extract from the communication addressed by Gen. Butler to Gen. Pack, from which it appears that the administration of the latter in his department was in no wise disapproved by Gen. Butler:

HEADQUARTERS EIGHTEENTH ARMY CORPS, }
FORTRESS MONROE, May 3, 1864. }

GENERAL: Your note of the 24th of April reached my hand to-day, and I hasten to reply.

Your being relieved from Newbern by me in no manner implies any censure upon your action, or disapproval of your administration, and was determined upon many days before the order was actually sent, and before it was known or believed that there would be any demonstration upon your department. The peculiar order was devised by the necessities of the service in other movements of the department, which are solely subjects of explanation.

With sentiments of respect and esteem, I have the honor to be, very respectfully, your ob't. serv't.

(Signed) BENJ. F. BUTLER, Maj.-Gen.

To Maj.-Gen. Pack.

From the above it will be seen that the fall of Plymouth on the 20th of April had nothing to do with Gen. Pack's change from North Carolina, and that no censure is implied to that effect.

THE NATIONAL CURRENCY BILL—LETTER FROM SECRETARY CHASE.

The following letter was read by Senator Sumner during the consideration of the National Currency Bill:

TREASURY DEPARTMENT, May 5, 1864.

SIR: Nothing but my deep sense of the importance of sustaining, by every possible means, the public credit, upon which the sole dependence of the Government to suppress the insurrection must rest, would induce me to address you this letter upon a subject which has already received so much consideration.

The bill in relation to the National Banking System, now under debate, is in the nature of an amendment to the act of the last session. Though a complex bill in itself, it contains few provisions not essentially involved in the act to which it relates. The taxation may be regarded, perhaps, as the most important, and under ordinary circumstances there might be no insuperable objection to leaving the property organized under the National Banking Law, subject, as are almost all descriptions of property, to general taxation—State, national and municipal. But in the present condition of the country, I respectfully submit that this particular description of property should be placed in the same category with imported goods before their entry into general consumption, and be subjected to exclusive national taxation. At the present moment the duties on imported forms the chief reliance of the Government for means to pay the interest on the public debt. If to these means the taxes to be paid by the national banks shall be added, a most important addition will be made to these resources. The mere fact that these taxes are made payable to the National Government, and so rendered available for the payment of interest on the public debt and for the reduction of its principal, will strengthen the public credit and facilitate the negotiation of the necessary loans at moderate rates of interest. I have no doubt that such a disposition of these taxes would be worth more to the Government during the present struggle in practical results than three times the actual value of the taxes themselves. I do not at all suggest that this description of property should not be taxed as heavily as any other description. On the contrary, I think it right that it should bear its full proportion of the public burdens. I am only anxious that the taxation upon it shall be made to contribute as largely as possible to the general welfare, and it is the conviction deeply impressed on my mind that it will contribute more when aggregated in one mass, and made to fall upon the general public credit, than when distributed between the nation and the States, and numerous municipal corporations, that prompts me to address these views to you.

Under any plan of partition that may be adopted the amount of taxation distributable to the several States and municipalities will be comparatively small and unimportant; and it is quite possible that the total taxation of banking property for all purposes will be less than it will if taxed exclusively for national purposes. The advantages of partition to States and municipalities, will, therefore, be small, and the banks may not lose by it. The nation alone will be injured. It will not be understood of course, that the foregoing suggestions are intended to apply to real estate held by any banking institutions—that description of property must necessarily be held by titles under State laws, and should properly be subjected exclusively to State taxation, except in the event of a direct tax by Congress. The case is otherwise with the national property and credit of the banking associations. These receive their organization from national law and for great national purposes, and may, therefore, be with great propriety, and, as I have endeavored to show at the present time, with great public advantage be subjected to exclusive national taxation.

Respectfully yours, S. P. CHASE.

Hon. WM. PITT FESSENDEN, Chairman of the Committee on Finance, Senate Chamber.

THE TREASURY INVESTIGATION.

Pending the investigations under the direction of the Secretary of the Treasury, and also by the Congressional Treasury Department Investigating Committee, Hanson A. Risley, Esq., Supervising Special Agent of the Second Agency, has been directed to take the oversight of the operations of the Printing Division of the National Currency Bureau. Mr. Clark, meanwhile, continues in charge of the work.

MORE DRAFTING.

In addition to those States heretofore announced, a draft has been ordered in the deficient districts of Vermont, New-Hampshire, Pennsylvania and New-York.

THE TEN-FORTY LOAN.

The subscriptions to the Ten-Forty Loan to-day amounted to $1,000,000.

FEARS FOR THE SAFETY OF A CHAPLAIN.

Serious fears are entertained for the safety of Chaplain Nathaniel Page, United States Navy, who in April last was ordered by the Navy Department to the East Gulf Blockading Squadron. His last address was Boston, Massachusetts.

DEATH OF A SURGEON.

James W. Fitzhugh, of New-York, Assistant Surgeon at the Harewood Hospital, died to-day.

STOPPAGES OF PAY.

Many stoppages have been made against the pay of certain Provost-Marshals and Surgeons, for improper enlistment or recruits declared by Boards of Examiners unfit for the military service of the United States.

INDIAN AFFAIRS.

Mr. Dix, Chief Clerk of the Indian Bureau, left Washington to-day for Western New-York, to make a treaty with the Indians in that section—about a thousand of them.

THE UNITED STATES SANITARY COMMISSION

Chartered a steamer at Baltimore yesterday, and loaded her with the following among other stores, and dispatched her to Hampton Roads: Four and a half tons of hospital clothing and bedding; five tons of hospital food; 1 ton of hospital dressings; 30 tons of ice; 2 tons of miscellaneous stores, in charge of an inspector and eleven relief agents. These preparations are in addition to those already made in the Army of the Potomac by the commission, to provide a complete organization of battle-field relief, adapted to the wants of the corps.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Friday, May 6.

PENSION AGENTS.

Mr. Foot, of Vermont, (Union,) from the Committee on Pensions, reported back the bill in relation to the compensation of Government Pension Agents, with amendments.

PATENTS.

Mr. Cowan, of Pennsylvania, (Union,) from the Committee on Patents, called up the bill to amend the act of March 3, 1863, to promote the useful arts. It extends the time within which the patentees who have neglected it, may pay the final balance fee to secure their patents for six months from and after the passage of the act.

The bill was passed.

CHARTER OF WASHINGTON.

On motion of Mr. Dixon, of Connecticut, (Union,) the bill to amend section five of an act entitled "An Act to continue, alter and amend the charter of the City of Washington," approved May 17, 1848, and further to preserve the purity of elections and guard against the abuse of the elective franchise by a registration of electors for the City of Washington, D. C., was taken up. He said that as the time for the municipal election in this city was near at hand, it was important that the bill should be acted on at once.

He submitted an amendment as a new section, providing that if the Board of registration or any one or more of them, shall neglect or refuse to perform the duties required of them, the Supreme Court of the District, on being informed of the fact, shall appoint some other persons as persons to perform all the duties and things required by the act, and such acts and things so done shall be valid the same as if done by said Board.

The amendment was adopted.

Mr. Cowan moved to insert the word "white," before "male citizens," in designating those who are to be voters.

Mr. Sumner, of Massachusetts, (Union)—I hope not, I hope not, Mr. President.

Mr. Cowan—I mean that the right to vote, especially when we were making an experiment which now trembles in the balance, is behalf of a superior race. It was a great mistake to suppose the right to vote was an inherent right, as many seemed to do. It was a mere conventional right, and existed only where agreed upon. It was on the basis of white men that the experiment of Republican Government was set up in this country. Our white women were not given the right to vote, and it will hardly be claimed that rude, semi-civilized, barbarous, uneducated negroes, who have just emerged from a degrading state of servitude, as in the case with the larger number in this city, are fitted to exercise the transcendent function that the intelligent white women and those are minors, one from sixteen to twenty-one years of age, who are certainly more generally intelligent and capable of exercising the elective franchise than these negroes who are not allowed to exercise political power as a class, and it is not to be doubted that these colored men would vote, or be led to vote as soon here, if given the power to do so.

Mr. Sumner said that the colored voters in Boston did not do so.

Mr. Cowan said they were too few in number there, in comparison with the other elements, to be of any weight in elections, and therefore there was no motive for class action. But, as in Boston, the negro cannot vote unless they can read and write; so that if these negroes were transported to Boston, they would not generally be voters. In Pennsylvania negroes had formerly voted, but the moment they became numerous enough, by reason of the accession of fugitives from the Border Slave States, to be felt and appreciated in the community, the people of the State almost unanimously decided to exclude them from the privileges of the elective franchise. He thought his amendment should certainly prevail.

INDIAN MATTERS.

Mr. Doolittle, of Wisconsin, (Union,) moved to postpone all prior orders, so as to consider two or three Indian bills.

Mr. Dixon hoped that would not be done. He had already said that this bill was important in view of the coming election.

Mr. Doolittle said he knew these Indian bills were more important.

Mr. Willey, of West Virginia, (Union,) hoped the bill would be postponed. There was no necessity for action on it.

The motion to postpone was rejected: yeas, 14; nays, 21.

Mr. Willey then addressed the Senate at some length, in opposition to the bill, till the close of the morning hour, when the National Bank Bill came up in order.

THE NATIONAL BANK BILL.

Mr. Sherman, of Ohio, (Union,) called for the reading of a letter from Secretary Chase, dated the 3d inst., addressed to Mr. Fessenden, Chairman of the Senate Finance Committee, and which had been referred to in the course of debate yesterday.

The pending question was on the amendment of Mr. Sumner to increase the tax on banks established under the act, to be applied to the payment of the interest and public debt.

Mr. Sherman said the amount of taxes imposed by the amendment of the Senator from Massachusetts was greater than that proposed by the Finance Committee, but as this was purely a national tax, he should vote for it in order to avoid any embarrassment to the passage of the bill.

Mr. Sumner's amendment was rejected; ayes 11, nays 24.

The 34th section of the bill in relation to the rate of interest to be charged by the banks, being under consideration,

Mr. Sherman moved an amendment which makes the clause read as follows: "That every association may change the rate allowed by the laws of the State or territory where the bank is located, and no more, except that where by the laws of any State a different rate is limited for banks of issue organized under State laws. The rate so limited shall be allowed for associations organized in any such State under this act."

The amendment was adopted.

Mr. Chandler, of Michigan, (Union,) offered an amendment to the 31st section, striking out the cities therein named as the West and as the East as available places for the redemption of the circulating notes of associations under this act, retaining simply New-York, Philadelphia and Boston as the points of redemption, which, after a debate, was adopted.

The 33d section was then amended so as to conform with the preceding one, by providing that instead of redeeming their notes at par to said cities, each bank shall select an institution in either of the cities named, at which its circulation shall be redeemed at a rate of discount not exceeding one-fourth of one per cent.

Mr. Henderson, of Missouri, (Union,) moved to amend the 23d section by striking out the limit of $300,000,000 for circulating notes under the act, and inserting the words: "The amount now authorized to be issued by the Comptroller to banks already created under the act."

Mr. Doolittle said that he desired to offer an amendment which would restrain this over-issue of paper money. The total amount of our circulation in paper and gold was already nearly $300,000,000, and how this bill proposed to authorize the issue of $300,000,000 more based on United States bonds. The first of all considerations should now be the stopping of the making of another paper dollar, unless it was made to take the place of other paper money now in circulation. To authorize the unlimited issue of this new National currency, while the State bank currency is still in circulation, was preposterous. He thought his amendment should certainly prevail.

Mr. Sherman said that he desired to offer an amendment to the bill, to the effect that the Secretary of the Treasury should be authorized to issue $50,000,000 more than the amount now authorized, whenever he should deem it necessary to do so, in order to meet the public exigencies.

Mr. Doolittle said that would be the very thing he desired to avoid.

Mr. Sherman said that he thought the time for the municipal election in this city was near at hand, it was important that the bill should be acted on at once.

Mr. Doolittle said he knew these Indian bills were more important.

Mr. Willey, of West Virginia, (Union,) hoped the bill would be postponed. There was no necessity for action on it.

The motion to postpone was rejected;

LAW REPORTS.

A New Ruling in the Most Causes has just been Announced by the Judges.

SUPERIOR COURT—TRIAL TERM.

Before Judge Sutherland.

John Anderson vs. The Mayor, Aldermen and Commonalty of the City of New-York.—This was an action against the City. The premises No. 18 Rector-street, occupied by the plaintiff, were attached by the men on the 14th of July last; and the plaintiff's stock and furniture were untroyedone calculated that he would recover for that portion of that property that was accidently destroyed by the mob at the time, and not for that portion stolen or taken away. Plaintiff's counsel maintained that he was entitled to the whole amount of his loss, owing to the fact that the defendants neglected to furnish additional protection for those adjacent to and adjoining, another of our healthful outdoor sports, and one, too, which is purely and solely American in its character. The Fulton-avenue cars to Fulton ferry afford a direct means of transportation.

Before Judge Peabody.

R. H. Morange vs. Peter Morris.—In this case the defendant had appealed to the Court of Appeals and given the usual undertaking. Thereupon he moved to have the papers marked "Secured on Appeal." Reference was ordered to ascertain the sufficiency of the securities, but before the report was handed in the plaintiff gave defendant a consent waiving the usual notice and application for order. Shortly after, however, he withdrew back the consent which was rejected, and plaintiff served notice of revocation. Without regarding this, defendant had an order entered to have the judgment marked "Secured on appeal" and plaintiff's counsel moved to have such entries cancelled, contending that a consent voluntarily given is revocable until acted upon. The Justice sustained the plaintiff's views, and the motion to vacate the order was granted, with costs.

Henry H. Morange for plaintiff; D. M. Porter for defendant.

Have Our Courts Jurisdiction of Differences Concerning Wages Between Italians on Italian Vessels?

MARINE COURT—TRIAL TERM.

Before Judge Mackellar.

Giuseppe Gardana vs. F. Cuneo.—The plaintiff, a seaman on the Italian bark *Omega*, sued to recover wages from the defendant, master and owner of that vessel.

Both parties are subjects of the King of Italy, and the charge is an Italian bark. Counsel for the defendant took the ground that the courts of this State had no jurisdiction in this case, as by treaty all matters of difference as to wages arising between Italian subjects on Italian vessels are to be settled by the Italian Consul-General at this port. Counsel also stated that American Consuls in Italian ports had sole jurisdiction in such matters concerning American vessels, and Italian Consuls have like jurisdiction here. The court reserved its decision.

John McKeon and Mr. Smyth for defendant; Mr. Andrews for plaintiff.

Practice—Consent Revocable when not Acted Upon.

SUPREME COURT—SPECIAL TERM.

Before Justice Peabody.

R. H. Morange vs. Peter Morris.—In this case the defendant had appealed to the Court of Appeals and given the usual undertaking. Thereupon he moved to have the papers marked "Secured on Appeal." Reference was ordered to ascertain the sufficiency of the securities, but before the report was handed in the plaintiff gave defendant a consent waiving the usual notice and application for order. Shortly after, however, he withdrew back the consent which was rejected, and plaintiff served notice of revocation. Without regarding this, defendant had an order entered to have the judgment marked "Secured on appeal" and plaintiff's counsel moved to have such entries cancelled, contending that a consent voluntarily given is revocable until acted upon. The Justice sustained the plaintiff's views, and the motion to vacate the order was granted, with costs.

Henry H. Morange for plaintiff; D. M. Porter for defendant.

A Question of International Law—Are Foreign Consuls Interfering with the Personal Liberties of Foreign Ambassadors Liable to Indictment?

SUPREME COURT—CHAMBERS.

Before Justice Ingraham.

Reuben D. Turner vs. J. H. D. Legur.—This was the case in which the Minister from San Salvador claimed exemption from the operation of the attachment laws, on the ground of his privilege as the representative of a foreign State. His Honor yesterday decided that Mr. LEGUR's immunities privileged him in no respect, and the attachment was set aside.

Counsel for the defendant stated that parties who ...ambassador were liable to indictment, and that there ...seen so held in a case which occurred some years ago in the City of Philadelphia, where a constable was tried, convicted and punished for a similar offence.

Jesse McKeon for defendant; James M. Smith for plaintiff.

Practice—Consent Revocable when not Acted Upon.

Motion in the Matter of the Lawrence Estate —Wills Admitted.

SURROGATE'S COURT.

Before Surrogate Tooker.

An argument was yesterday heard by the Surrogate on an application for the appointment of a new Collector on the estate of Abraham R. Lawrence, deceased.

Mr. Fullerton, recently committed for contempt by the Surrogate, appeared in the case and argued in favor of the application. Decision was reserved.

The following wills were admitted: Mrs. C. M. Kirkland, Eliza Sprig, James Benkard, William Hill, Jesse B. Parrish, of L. whiskey and Henry Lockman. Mrs. Kirkland's will leaves her estate to her family, and contains no provisions of public interest.

A Word to the Youth.

The Venetian Hair Dye

is the most elegant preparation now in use. It is a most delightful dressing, and will restore gray hair to its original color, without the possibility of detection. It is the best article in the world for the toilet, highly concentrated, only 50 cents a bottle. Sold by all druggists, and by HALL & RUCKEL, No. 379 Canal-st., New-York.

A Slight Cough,

if neglected, may lead to Consumption. What is sometimes called "getting cold" frequently ends in Bronchitis. That slight tickling in the throat, that hoarseness, that difficulty in breathing when a remedy so prompt and certain as Dr. D. Jayne's Expectorant can be readily procured. Sold by KITCHEN, TYLER & CO., No. 140 Chambers and No. 1 Hudson-st., and by druggists generally.

We have negotiated, with an Mr. Charles MEYER, the accredited Agent of the German Newspaper throughout the United States, and are prepared to contract for advertising in them on the most favorable terms. For advertisers, here an adequate idea of the value of these newspapers as advertising mediums. There are about 150 of them in all, nearly of these published in sections where populations are largely German, wholly, and to purchase, and only to be reached through columns published in their mother tongue. Full particulars furnished on application.

No. 37 Park-row, New-York.

Twenty Years Ago

the VENETIAN HAIR DYE was introduced, and it has now the largest sale of any Hair Dye in the world. Its price is only Fifty Cents, and each bottle contains double the quantity of dye in those usually sold for $1.

The VENETIAN DYE is warranted not to injure the finest or the most delicate hair.

The VENETIAN DYE works with rapidity and certainty, and the most delicate or sensitive can use it.

The VENETIAN DYE produces any shade that may be desired—any that will not alike, great or weak, and that is as permanent as the hair itself.

For sale by all druggists. Price 50 cents.

A. T. MATHEWS, General Agent,
No. 11 Cedar-st., New-York.

Also, Manufacturer of "MATHEW'S ARCTICA HAIR GLOSS," the best hair dressing in use. In large bottles, price 25 cents.

To Advertisers.

We have completed arrangements which enable us to contract for advertising in the leading newspapers of the United States, Canada and France, on the most favorable terms.

You have asked me what good effects I experienced from using "ROHAIN'S CRIMEAN BITTERS," which you so kindly placed at my disposal, after a severe attack of Typhoid Fever. I will say that I experienced very much benefit from its use, and was enabled to resume my duties in a much shorter time than I expected, after so severe an illness. By its use my digestive organs gained their functions quickly. As a tonic prepared so carefully as it is, and from so valuable medicines, one can, in my opinion, fail to do good when properly used.

U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress, of March 3, 1864, which provides that all Bonds issued under that act shall be EXEMPT FROM TAXATION by or under any State or municipal authority. Subscriptions to these Bonds are received in United States notes or national Bank Notes. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, in fifty years from their date, and until their redemption, FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually, and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial use.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1, by paying the accrued interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receiving from drawing interest from the date of subscription and deposit. All Coupon Bonds are

EXEMPT FROM MUNICIPAL OR STATE TAXATION.

Their value is increased from one to three per cent. per annum, according to the rate of tax levied in various parts of the country.

At the present rate of premium on gold they pay

OVER EIGHT PER CENT. INTEREST

in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to holders in the various descriptions of U. S. Bonds. In all other forms of indebtedness the faith or ability of private parties or local companies or separate communities only is pledged for payment, while on the faith of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the increase.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 1st day of March, 1864, was $174,000,000. The interest on this debt for the coming fiscal year will be $40,297,240, while the customs revenue in gold for the current fiscal year, ending June 30, 1864, has been so far at the rate of over $100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to $150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 31, less than the third of the month of April the subscriptions averaged upwards of TEN MILLIONS A WEEK.

Subscriptions will be received by the

First National Bank of New-York, No. 4 Wall-st.

THE CASE OF HUTCHINGS, THE "LIGHTNING CALCULATOR."

There was published in these columns a few days since the remarkable cure of Hutchings, the "Lightning Calculator," so well known to the public during the many years he exhibited his wonderful arithmetical powers at Barnum's Museum, by the celebrated Oculist and Aurist, Dr. Von Eisenberg, of this City. Hutchings is represented to have been at the point of death, and but for the timely interference of the Doctor, would now be resting in his grave. This is a remarkable case, and worthy of the attention of persons similarly achieved.

We think it but just to Doctor Von Eisenberg to call public attention to this case. There are hundreds in the community suffering from catarrh, who, like the "Lightning Calculator," if not actually praying for death, are ready to accept of anything that promises to relieve them from their distresses. To such we would say, trifle not with inexperienced men, but consult, without unnecessary delay, Dr. Von Eisenberg, who, at least, has the honesty to assure his patients whether it is within his power to make them whole or not.

EARS TO THE DEAF.

Every man, and especially every woman, believes in his or her physician. There are philosophical minds which hold to an abstract faith in Allopathy, or Homeopathy, or Hydropathy, or some other form of scientific cure; but with the world at large the belief is not in the system, but in the doctor. Especially is this true as regards aurists and oculists. The patient who has recovered his sight or his hearing is sure that the blessing could have been restored to him by no other practitioner than that particular one by whom his eyes or ears were opened. Dr. Von Eisenberg is among our best-known aurists. He has not lost as yet as a brother practitioner has eyes, and in whom skill, therefore, we believe above all others. But we hear of him from those who esteem him not merely as a surgeon, but as a benefactor. A recent case has been related to us, for the truthfulness of which we can vouch, though we can name no names. The patient was a lady who had been deaf from infancy, as a consequence of some of the ailments to which children are liable. Latterly the disease had taken an acute form, and the patient was subject to intense suffering. The deafness was rapidly becoming complete, and the general health breaking down under the physical exhaustion attendant upon constant pain. Ordinary remedies and ordinary advice were useless, and Dr. Von Eisenberg was called in. We need not repeat his diagnosis, for that would be only a list of hard names to the general reader. But he detected at sight the seat of disease, first in one portion of the organism, then in another, and with manipulation as skilful as his insight was accurate, he removed the cause, and she who, from infancy, had heard with difficulty, and latterly hardly at all, was restored first to perfect hearing and then to perfect health. Dr. Von Eisenberg's advertisement reminds us of this case, which we thus briefly relate, though not at his solicitation. Let him that hath ears, hear.

From the Christian Times.
SIGHT RESTORED.
CONCERNING EYES AND OCULISTS.

Of the five senses, that which we call seeing is the most important and most valued. In proportion as this sense fails us, we are reduced to helplessness. If entirely destitute of sight, how slow would be our progress in knowledge, and how limited our sphere of action and enjoyment. Bereaved with it, the keenest hearing, as may occasion, clothed with the darkness diversified by that infinite variety which never fails to attract the mind and touch.

For several months past this has been a practical subject to us. An inflamed condition of the eyelids compromising itself to the pupil, rendered the discharge of daily duties not only painful, but dangerous. Attributing it to the effect of a cold, we endured it through the spring, with the hope that with the return of warm weather it would entirely disappear. But in this we were doomed to disappointment. Summer returned, but not our wonted sight. What might have been the result, either of further neglect or of incompetent treatment, we cannot say.

Stating our case to a friend, he assured us that a similar one in his own family had recently been treated with entire success by Dr. Von Eisenberg, of this City. Satisfying ourselves by more particular inquiries that the doctor is no empiric, but a scientific oculist and aurist, we determined to seek the benefits of his treatment, which we have now reason to acknowledge in very great. Though but a few weeks under his care, the appearance of our eyes has totally changed. The pupil is now full and clear, and the lids are entirely free from inflammation. The doctor says that the optic nerve has been weakened and the retina assumed a chronic inflammatory state, affecting more or less all the other tissues, and threatening, if neglected, to end in Amaurosis. Opthalmitis, is the term we believe, which exclusively apply to eyes affected as were ours. Having obtained the much desired relief, we take great pleasure in acknowledging our indebtedness to the talent of Dr. Von Eisenberg, and of calling to it the attention of others who may be suffering from a similar or even worse condition of their eyes. It is said that Providence provides an antidote for every bane. It is certain that the eye is, in these times, subject to severer trials than formerly. Let us be thankful, then, that as we increase the tendencies which destroy the organ of vision, the progress of science keeps pace with these tendencies. First in advance of them

DIABETES,
STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.
IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,
STRANGUARY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its favor. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

have long since given up the use of buchu, copaiba and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

has proved itself equal to the task that has devolved upon it.

DIURETICS

irritate and drench the kidneys, and by overwork can soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving pain of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet with universal favor, and supersede the use of IN DYSMENORRŒA OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the internal tissue—in one case being too little, and accompanied by a spasmodic action, in the other a profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging down in the back and loins, with frequent, severe, sharp, fascinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nymphomania, which would convey to much interested in this, among out of delicacy to the sex, we only know whether the symptoms are the disease or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Imperfect Memory, Wakefulness, Flashes of Heat, Languor, Lassitude and Disinclination to Move.

SUPPRESSED MENSTRUATION,

Which, in the unmarried female, is a constant recurring disease, and through neglect the seeds of more grave and dangerous maladies are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loses her appetite, the bowels are constipated, night sweats come on, and consumption finally ends her career.

AID FOR EAST TENNESSEE ORPHANS.—THE CHILDREN'S AID SOCIETY of this City have been requested by the Secretary of the Christian Commission in Tennessee, Rev. ——, to provide homes in the West for about fifty worthy children, East Tennessee, made orphans by the calamities of this war. These are the sons and daughters of those faithful loyalists who have lost everything for their country. Their unhappy condition appeals to every lover of the Union, and especially to those of us who have escaped the most serious losses and trials of the war. They are the destitute children of the nation. They are above all, good and kind homes in which to grow up. This Society is not permitted by their charter, which limits their work to the children of New-York and vicinity, to appropriate their own funds for the aid of these children, but they will gladly offer their machinery for such an act of humanity. They accordingly ask from the public liberal donations for the food, clothing and care of these children, the expenses of the journey and of washing over their welfare in the future.

They propose about the 10th of May to send out their experienced Western agent, Mr. Tracy, to meet this little company of American orphans, and to place them in the best Western homes open to them.

Donations may be sent to the Treasurer, J. P. Williams, Esq., Metropolitan Bank, or to the President, W. A. Booth, Esq., No. 39 Front-st., or the Secretary, C. L. Brace, Esq., No. 19 Clinton Hall, Astor-place.

POST-OFFICE NOTICE.—THE MAILS FOR Great Britain and the Continent, via Southampton and Bremen, per steamer BREMEN, and for Ireland, via Queenstown per steamer KANGAROO, will close at this office on SATURDAY, the 7th day of May, at 10½ o'clock A. ERNEST RENAN'S NEW BOOK.
RELIGIOUS HISTORY AND CRITICISM.
BY THE AUTHOR OF "THE LIFE OF JESUS."
A large, elegant octavo, cloth-bound, price $2 50.
"This remarkable book is finding its way among all THINKERS throughout the land.
The Troy Times says: "However much one may differ from M. Renan in his Scriptural reasoning, every man of cultivated taste must accord to his essays and his writings generally an intellectual acuteness and historic worth that are superior to most modern writers."
"His pages are full of strong food for the mind. His lofty sentences gleam with thought, far-flashing and powerful. No man's mental fruits from the reading of these essays and not feel refreshed. To the scholar, the savan and the historian they present an inexhaustible source for topics of religion, science and criticism."

MEETINGS.

LIEUT. C. CLARENCE T. KEITH, OF THE SIGNAL CORPS.—At a meeting of the Class of 1860, of the New-York Free Academy, held Monday evening, the following resolutions were unanimously adopted:
Whereas, the band of death has lately removed Lieut. C. Clarence T. Keith alike from the

WER ALLEGED CONSPIRACY TO MURDER.

Mr. John D. Lewis Discharged.

Yesterday afternoon Justice SHANDLEY, of the Essex Market Police Court, rendered a decision on the motion to discharge Mr. JOHN D. LEWIS, a merchant doing business at the corner of Chambers and Church streets, from arrest. The motion was granted, and LEWIS was released from the heavy bonds under which he was placed about five weeks ago.

In rendering his decision, the Magistrate said: "After a careful examination of the evidences in the case, I am of opinion that the evidence is insufficient to warrant me in holding Mr. JOHN D. LEWIS to answer upon the charge against him. Although the defendant, JOSEPH ACKERMAN, has confessed his guilt, he cannot, under the law, criminate anybody but himself. I deemed that the ends of justice would be promoted by using McCARTY and GALVIN as witnesses."

It would thus appear that so far as Mr. LEWIS is concerned, the grave charge of conspiring to take the life of John H. ANDERSON has no real foundation, and he stands exonerated. The charge was based not only on the affidavit of Mr. ANDERSON, but also on those of ACKERMAN, CHARLES and McCARTY. The latter are held to await the further action of the criminal courts.

CHANCELLOR SAMPLE and D. T. DICKINSON for the defence; CHARLES S. SPENCER for the prosecution.

The Draft.

It seems now pretty certain that a draft will take place in this City on Monday next. The number of men needed is about two thousand.

The following order has been issued by order of Brig.-Gen. HAYS to the various Provost-Marshals covering them to prepare for the draft, immediately:

SUPERVISOR DIVISION OF NEW-YORK, }
NEW-YORK, May 4, 1864. }

Brig.-Gen. HAYS directs me to instruct the Provost-Marshals in this division to lose no time in preparing lists for the approaching draft. They will first prepare the names for the sub-districts which are most behind on the last call for troops.

An immediate report of the progress heretofore made is required, and each Provost-Marshal will further report when the enrolment completed.

Assistant Adjutant-General.

COLLISION.—The schooner Amelia, of Machias, laden with iron, from Elizabethport for Boston, was run into on the evening of the 30 inst., when opposite Bedlow's Island, by the steamboat John Potter. The schooner sunk immediately in about 16 fathoms water—the crew having barely time to save themselves in the yawl. The John Potter, proceeded on her course without stopping to render assistance, or to ascertain the damage she had inflicted.

CURE OF A DEAF MUTE.—LOUIS LOEWENSTEIN, a lad 14 years of age, born in Germany, came to this City when he was about two years of age. Soon after his arrival here he was taken sick and lost his hearing. By degrees he became first deaf and then dumb. For nearly ten years he was a mute, unable to hear the loudest noise or articulate a word. About nine years ago it was placed by its parents in the hands of Dr. LEONARD PEET, who has so far succeeded in restoring to him his lost powers of hearing and utterance, that he can converse with those who speak to him distinctly and deliberately. During the past four or five months he has been under the tuition of Mr. RUSSELL, and has made considerable progress in reading and arithmetic.—N. Y. Tribune.

The *North American Review*, in speaking of the new story, *Cudjo's Cave*, says: "It is happily adapted to the excitement of the hour, and is entertaining from the rapidity of its incidents, and the animation of its style. The demand for it is so large as to have several presses constantly at work."

PUBLISHED THIS DAY:
WOODBURN.

A Novel, by ROSA VERTNER JEFFREY, Author of "Poem by Rosa." 1 vol.; 12mo. Price $1 25.
From the Louisville Journal.

A Novel entitled "Woodburn," by Mrs. Rose Vertner Jeffrey—who, under the nom de plume of "Rosa," has achieved so bright a reputation as a poetess—is forthcoming from the press of Sheldon & Co., New-York. Her section of admirers feel a world of curiosity concerning the book, but no solicitude; they confide implicitly, as well they may, in her rare and beautiful powers. We predict for "Woodburn" a very rapid and extensive sale.

DEAFNESS AND CATARRH.

No. 23 FOURTH-ST., New-York, Oct. 1, 1863.

Dr. Von Eisenberg:

DEAR SIR: Without recapitulating the numerous benefits I have received through your wonderful cure of the deafness I have labored under many years, the blessings I enjoy will convince the most skeptical.

I have tried many saints, in Europe and America, without success. I was still deaf as a post.

Three years ago I entered your office, underwent one operation, hoping, yet doubting, I should receive any relief, but was agreeably disappointed in finding the genius of your profession.

The innate skill you possess cured my deafness in one almost painless operation.

The joy I experienced was indescribable; 'twas a new life to me.

My hearing is perfect to this day.

I strongly advise all who are suffering undera difficulty of hearing, or total deafness, to consult you immediately, as I also personally recommend all who apply to me. The numerous calls trespass on my time and patience, yet, remembering my own long, weary affliction causes me to pity them.

This is not written to advertise your well-known, unrivaled reputation—that would be puerile; but as a measure of precaution, to induce all to call on you at once, without troubling me; yet I do not refuse to see any one who comes to me. This is the only way I can show my gratitude.

I can call the attention of those who are suffering from Catarrh, which disease I have labored under one year or more.

I experienced difficulty in breathing, languor, heaviness over the eyes, a sense of tightness on the brain, and copious expectorations of a hard and viscid nature. Accompanying this is a "polypus," quite filling the right nostril. On the 25th ult. you operated on both, killing the polypus, which is gradually passing away, and giving me great relief from the Catarrh. One more operation will effectually cure.

This testimonial brings with it my unalloyed and grateful thanks, with but a poor delineation of your wondrous skill as an Artist.

I am, Sir, yours very gratefully,
EDWARD TEMPLE HARRISON.

RECENT TESTIMONIALS.

CATARRH CURED.

FROM REV. FRED. H. JEWELL.

PROFESSOR OF THE STATE NORMAL SCHOOL, ALBANY, N. Y.

This may certify that I have been, since 1844, subject to violent periodical attacks of catarrh, marked by the highly inflamed condition of the lining membrane of the cavities of the head, producing a most distressing varieties of headache, for days to a time, wholly incapacitating me from business, and, during the paroxysms, confining me to the bed. In some instances the inflammation has extended to the teeth, occasioning toothache; to the throat, producing hoarseness and partial loss of voice; and twice it has so affected the left eye as to confine me for a month or more to a darkened room. These attacks have been accompanied by strong febrile symptoms; by stoppages of the head, and in the first stages by watery discharges from the nose, and subsequently becoming acrid and yellow, and, toward the close of the attack, becoming bloody and purulent. I have tried medicines of almost every kind; external applications to the head, such as camphor, ginger, hot vinegar, zoroff of every half dozen kinds, and other external preparations, together with internal remedies, such as alteratives, cathartics and emetics. These have produced no change in the occurrence or character of the disease, and, in most cases with little or no temporary relief. I had come, at length, to believe the disease to be practically beyond either cure or material alleviation.

Under these circumstances, I was led, some five months ago, to make a trial of Dr. LIGHTHILL's treatment. His method at once approved itself to my judgment as simple, philosophical, and likely to be effective. Notwithstanding the disadvantages under which he labored in dealing with a disease of such long standing, aggravated by nervous debility and dyspepsia, and continually inflamed by the accidents of my professional labor, I found the treatment reaching the disease as it had never been reached before, and producing such a mitigation and alleviation of its character as I had supposed impossible. I chronicle the result that

Although I have been similarly relieved several times in that I should formerly have believed a severe attack of my catarrh inevitable, I have escaped that far: the symptoms of threatened attack have been very light, and have yielded to the remedies employed by Dr. LIGHTHILL, without the need of recourse to the old but fermentations, or emetics, and the discharges from the head have resumed the original and natural condition. That I have been able to obtain so material a relief is to me a cause of gratitude. In that alone I am repaid for whatever the treatment may have cost me.

I make this statement unsolicited, as a means of acknowledging my obligations to Dr. LIGHTHILL's method of treating catarrh, and with a view to aid any who may have suffered from that disease in forming a just opinion of its merits, and its probable utility in their own case.

FREDERICK H. JEWELL.

ALBANY, N. Y., March 14, 1864.

REMARKABLE CURE OF DEAFNESS.

From Rev. Joseph M. Clarke, Rector of St. James' Church.

SYRACUSE, Feb. 25, 1864.

I have been deaf in one ear ever since I was in College, owing to mine years ago. By the skill of Dr. LIGHTHILL its hearing was entirely restored, so that now I hear alike with both ears, and I find that I can use my voice with much more ease and comfort than before.

JOSEPH M. CLARKE.

From the Rev. John Nott, D. D., Professor in Union College, Schenectady.

Since I first publicly acknowledged the great benefit which I received from the skilful treatment of Dr. LIGHTHILL, in regard to my hearing, letters of inquiry have incessantly poured upon me from all parts of the country, from parties desiring to learn the particulars of my case, and I am indeed surprised at the number of individuals who are afflicted similar to the manner in which I have been, and therefore feel it more and more a sacred duty which I owe to these sufferers, to direct them to a proper and reliable source to obtain the benefit they so much crave, and which so many afflicted ones have hitherto sought in vain. Just as I had done previous to applying to Dr. LIGHTHILL.

I had from infancy one very deaf ear, which at very discharged more or less offensive matter, and was the source of the greatest annoyance and discomfort to me. Last year the other ear also became diseased, and both ears discharged a yellow, acrid, very offensive and highly offensive. My hearing became very much impaired, and the discharge produced the greatest debility of body and depression of spirits. I applied to my family physician and other practitioners, without deriving any benefit, and almost despaired of being restored to health, when, providentially, I applied to Dr. LIGHTHILL. Under his treatment my ears began to improve at once, and continued to do so until, in a comparatively short time, both ears were healed, the discharge removed, and my hearing restored. At first I feared the cure would not be permanent, or that the stoppage of discharge of so long standing might prove detrimental to my general health—a fear which I find a great many entertain in regard to the removal of discharge from the ear. My experience, however, has proved conclusively that my apprehensions were entirely groundless in both respects, for both ears are as well, and my hearing is as good at present, as the day I left off treatment, and the stoppage of discharge, instead of proving detrimental to my health, has given the highest elasticity and vigor to my body, and a flow of spirits not experienced for a long time previous.

I wish that the above might serve as a general answer to the interested, but should one or the other desire to apply to me personally, or by letter, I will cheerfully satisfy reasonable demands upon my time.

I avail myself of this opportunity of again publicly expressing my deeply-felt gratitude to Dr. LIGHTHILL, whom I esteem as a gentleman and a man of science, in whom the highest confidence may be placed. JOHN NOTT.

References to parties of the highest respectability residing in the City, who have been cured of Deafness, Catarrh, &c., may be had on application.

HELMBOLD'S GENUINE PREPARATIONS
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU.
A positive and Specific Remedy for Diseases of the
BLADDER, KIDNEYS, GRAVEL and DROPSICAL
SWELLINGS.

This medicine increases the power of digestion and stimulates the absorbents into healthy action, by which the water or corrosive depositions, and all unnatural enlargements, are reduced, as well as pain and inflammation, and is good for Men, Women, or Children.

II

HELMBOLD'S EXTRACT BUCHU
For weaknesses arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuse, attended with the following symptoms:

Indisposition to Exertion,	Loss of Power,
Loss of Memory,	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Hot Hands,	Flushing of the Body,
Eruptions on the Face,	Universal Lassitude of the Muscular System,
Pallid Countenance,	

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS

In one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION!

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness! THE CONSTITUTION ONCE AFFECTED BY ORGANIC WEAKNESS

requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. A trial will convince the most skeptical.
